

DEFINITIONS OF PROJECT COLOR CODING

FEDERAL BLUE BOOK

New construction, rehabilitation and/or reconstruction for extending the life of bridges and pavements. Funding consists of Federal and State funds on Interstates, National Highway System and Federal Aid eligible routes. Follows the full Design Process.

Federal funding submit	R-709 and T-725 and statistical report.
Project numbers could be	IM, NH, STP, BHF, BRP
Job/Proj ID #'s	50000 or 40000 (Federal coop forest or public roads projects)

FEDERAL PURPLE BOOK

Pavement Preservation: Projects to add structural value to the pavement surface. These are simple resurfacing projects with 2"- 4" overlays with or without rotomilling. These are pavement rehabilitation projects only that use a modified Design Process (**limited engineering design**)

Federal funding submit	R-709 and T-725 and statistical report.
Project numbers	IM, NH, or STP.
Job/Proj ID #	50000

STATE GREEN BOOK

New construction, rehabilitation and/or reconstruction for extending the life of bridges and pavements. State construction monies or dedicated Federal Funds. Follow the full Design Process.

State funding submit	T-725
Project number	SP.
Job/Proj ID #	70000

STATE PURPLE BOOK

Pavement or Bridge Preservation: Pavement: Projects to add structural value to the pavement surface. These are simple resurfacing projects with 2"- 4" overlays with or without rotomilling. These are pavement rehabilitation projects only and use a modified Design Process. (**limited engineering design**)

State Funding submit	T-725 and Contractual Maintenance Authorization Form or the Bridge Preservation Authorization Form
Project Number	SP
Job/Proj ID	7000 or 9000

STATE ORANGE BOOK

State Maintenance Projects: Pavement and bridge preventive maintenance. These projects could use a combination of State and Federal funds. Follows the Orange Book Design Process.

State funding submit	Contractual Maintenance Project Approval Form
Federal Funding submit	T-725.
Project Numbers	SP
Job/Proj ID #	State 30000

STATE RED BOOK

These are **Operational Safety Spot Improvement Projects**. These projects can include new signal equipment at warranted intersections, guardrail end treatments, intersection lighting route markers, school zone sign upgrades, turn lanes, shoulder treatments, passing lanes and other spot safety work.

State funding submit	T-725
Project Number	SP
Job/Proj ID #	90000
